Subject: Draft Comments re Key FS Elements Check-in
Date: 05/10/2011 05:57 PM

Chip:

I've read through the draft document you shared and I must admit I am really concerned about the June check-in. The 5 objectives you listed up-front appear to be OK (although I think #5 is a bit problematic). However, the level of detail your team is expecting on every issue is way down into the weeds, and at a scale much smaller than we ever envisioned for a "Key FS Elements check-in".

I have some ideas on how to help craft a path forward and would like to discuss this with you before you send this memo to LWG (I think receipt of this memo as currently crafted will bring this project to a screeching halt). Please feel free to call me tomorrow before Exec (which starts at 9:00am), or before our monthly PM meeting (which starts at 1:00pm).

Thanks,

Jim McKenna
